

LOCAL CONVERSION

SPECIALIZED SERVICES & COMMERCE

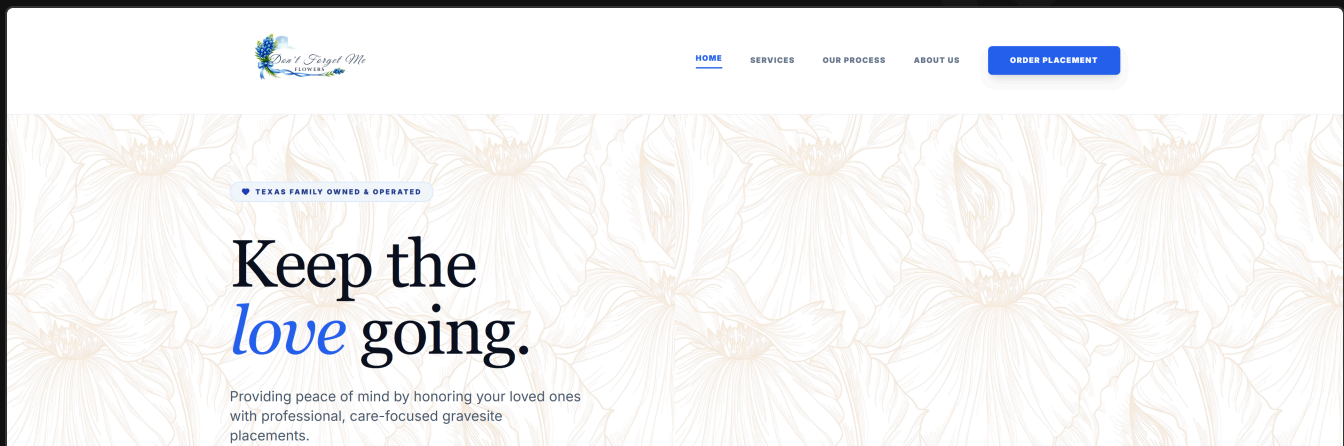

EXECUTIVE SUMMARY

Niche service businesses rely on trust and seamless booking experiences. Standard templates fail to capture the unique workflows of highly specialized offerings. L/Tech engineers completely custom, high-conversion service portals designed specifically to dominate local search and turn visitors into booked clients instantly.

DON'T FORGET ME TX (DFMTX)

SPECIALIZED DELIVERY

THE CHALLENGE

DFMTX operates a deeply specialized cemetery floral placement service. They needed a beautiful, respectful digital storefront capable of handling custom service requests, recurring scheduling, and dynamic inventory.

THE L/TECH DEPLOYMENT

- Built a custom e-commerce booking flow tailored to their specific niche.
- Engineered zero-latency mobile performance for on-the-go clients.
- Integrated the **SitePilot Engine** for total inventory autonomy.

AUTONOMOUS MANAGEMENT

STOP PAYING AGENCIES TO UPDATE YOUR SERVICES

SITEPILOT PLATFORM

PROPRIETARY
TECH

Built from the ground up for specialized businesses like Don't Forget Me TX, SitePilot is an integrated Content Management System (CMS) that securely ties into your web infrastructure via Firebase Auth.

BUSINESS OWNER BENEFITS:

- **Instant Updates:** Add new seasonal products or change pricing directly from your phone.
- **Total Autonomy:** Never pay a web developer a monthly retainer just to manage your own inventory.
- **Data Security:** Enterprise-grade Google Firebase Authentication keeps your customer data locked down.

YOUR INFRASTRUCTURE AUDIT

We just ran a preliminary scan on your digital footprint. Most local service businesses are losing 30-40% of their mobile traffic due to slow load times and confusing booking funnels.
